

BOARD GAME

Roll the dice and move your chip according to the number on the dice. The monkey loves you. The croc hates you.

How to play the this board game.

1. Type in the words or phrases you want to practice into the spaces provided. Or put pictures into the spaces depending on what language skill you want to reinforce.
2. Print out the board game below and laminate it. If possible, enlarge it in A3 paper when photocopying.
3. In pairs of two get students to play the game. Give each group a board game with one dice and two chips of different colours.
4. The students roll the dice and move their chips forward according to the number that shows up on the dice.
5. The numbers from 1 to 20 guide the sequence of the game. Students must follow that order.
6. When students land on a space, use the language given in that space. For example if you just typed in vocabulary, you could ask students to make a sentence with the word. If it is a question, they answer. If it is a picture you put into the space, the could be asked to use the word in a sentence or simply any language you want to practice.

7. If a student lands on the monkey space, they jump according to the description on the space.

8. If a student lands on the croc space, they go back to START.

9. The first person to get to FINISH wins.

N:B : This game can be used to practice any language skill. It is an all-purpose board game. Highly customizable to your learning needs. This is our philosophy of ESL Kids Board Games at www.eslkidslab.com or www.english-4kids.com
